

**Only the People **Should** Decide!**  
**Reclaim **Democracy** in the Forthcoming General Election!**

*“Secure, Exercise and Defend Our Democracy!”*

**WHY?**

There is a total lack of democracy in this State

The Dáil—the people’s assembly—is dominated by political parties of vested interests

The national wealth of Ireland, its land, seas, labour & mineral resources have been forfeited to native and foreign moneybags

Increasing numbers of people live in real poverty

**WHAT?**

**CPPC** is a totally different type of political party

**CPPC** is the organisation of **Every** voter in **every** Constituency

In **CPPC** there are no policy divisions. Its policy is simply to empower the electorate

**CPPC** is the means to exercise our democracy

**HOW?**

By **Selecting** People’s Candidates

By **Voting** for the People’s Candidates

After the election by **Mandating** the People’s Representatives on **EVERY** Draft Law, Budget Proposal & Treaty

By **Recalling** any representative who fails to fulfil their democratic mandate

**WHO?**

If we are to free ourselves from the tyranny, the lies, the sell-out, then it is down to each one of us.

Each & every organisation—social, cultural, political & community— must come together to establish democracy for the citizens of this State

We can do this though a **The People’s Convention** in every Constituency
