

## An Chomhdháil Phobail | The People's Convention

We, the people, have NO say in deciding how our country is run, we are dictated to, our families and community broken, our future sold!

A movement is underway to ensure that the people in each area select our own candidates in the elections - only the people should be represented in City Hall, there is no right of representation for Political Parties or any private member clubs.

People's Candidates must win ALL seats!

With THE PEOPLE'S CONTRACT we can ensure that we are the decision makers.

It is the people's right to decide the priorities for Budgets, local and national, let's have that.

The PACT and Party '*whip*' system must be abolished, let's end their gravy train!

Come to the meeting, join the effort, this is the first step towards solving the issue of representation nationally, in Dáil Éireann.
